Then comes the job of analysing the results, which falls to Mr Mason and his colleagues. They are hopeful that the app - and anyone who plays the game - will make a useful contribution to monitoring the numbers, distribution and activity of tigers in the wild.
Apple’s arguments are largely that Samsung’s smartphones changed significantly after the release of the iPhone. It asserts that devices like the Samsung Galaxy S and the Galaxy Nexus were “a rectangular product with four evenly rounded corners,” and that the presentation of these devices was in no way related to usability.

Many retailers have been struggling, but that is not the case at companies that cater to home owners. Both Lowe’s and Home Depot have seen comparable-store sales in the U.S. rise over the past three consecutive quarters.

"If you take the consolidation as a whole, this parliament and the last, then it’s unprecedented since at least the Second World War," said Emmerson. "We’ve generally only cut for two years in a row, not eight or nine."

Like many people, Daniel believes nicotine gum is far less harmful for him than smoking. Doctors worldwide agree. By giving up cigarettes, they say, Daniel has removed at least 90 percent of the health risks of his habit.

Angela Merkel, once dubbed the "climate chancellor", hopes to encourage the Group of Seven industrial nations to commit to tough goals to cut greenhouse gases at a June 7-8 summit in Bavaria before a larger year-end United Nations climate meeting in Paris.
The activists say they are concerned about the risk of an oil spill in the remote Arctic waters and the effects that tapping new frontiers of oil and gas reserves will have on global warming. Officials in Alaska have touted the economic benefits that drilling could bring there and to the Pacific Northwest.
