The developments came Monday as trains began running to New York again for the first time in nearly a week. They also raised new questions about the events leading up to the derailment, including a conversation an assistant conductor told investigators she heard between the Amtrak engineer and a regional rail train engineer minutes before the train sped up and went off the rails at a curve.

The Fuji X-T10 is powered by a rechargeable NP-W126 lithium ion, the same battery pack as the X-T1. The camera is CIPA-rated for 350 shots per charge (tested using the 35mm f/1.4R with LCD display on). Though individual movie clips are limited to 14min. and 27min., depending on Full or HD resolution, respectively, the battery pack should be able to handle up to 124 total minutes of video recording per charge.

"This research and previous research indicates the act of socially comparing oneself to others is related to long-term destructive emotions. Any benefit gained from making social comparisons is temporary, and engaging in frequent social comparison of any kind may be linked to lower wellbeing," Ms Steers added.
