Labour's acting leader Harriet Harman appointed herself to the unofficial title after pointing out she was the longest-serving female MP in the Commons. The MP for Camberwell and Peckham, first elected in 1982, made the comments during the Speaker's election exchanges, "to prevent us all from falling headlong into patriarchy" and promised "good parenting" along with Mr Kaufman.

Bruce sat down with stepdaughters Kim, Khloe and Kourtney Kardashian and daughters Kendall and Kylie Jenner to discuss what his life will be like for him after his gender transition, which so far has included some cosmetic surgeries to alter his appearance.

Nearly a week after the derailment, it remains a mystery what caused the train to accelerate from 70 miles per hour (113 km per hour) to 106 mph (171 kph) in the minute before the crash. Authorities have not yet ruled out equipment malfunction, human error or other possible reasons for the train gaining speed so rapidly.

Curry's top-seeded Golden State Warriors are set to meet the Harden-led Houston Rockets in a Western Conference shootout, and across the coast the Cavaliers and Hawks face off in the East with each team trying to make a rare appearance in the NBA Finals.

Islamabad, May 19: A major global scam was busted following an expose on a company known as Axact operating out of Karachi in Pakistan. It was alleged that this company was running a racket running into millions of dollars by setting up fictitious universities and providing fake degrees all over the world.

So what’s the score? Well, there’s been a number of job adverts on Google’s website. The Google Glass team are now focused on developing “smart eyewear and other related products,” suggesting that Google are going to expand beyond the goggles.

"Based on recent surveys, we know that many of our U.S. customers are using their tax refunds and the extra money from lower gas prices to pay down debt or put it into saving," CEO Doug McMillon said in a statement.

The five Rangers leaders in their nearly-empty locker room knew it. Garden chairman James Dolan knew it, letting out a heavy audible sigh as he passed the media in the hallway. No one had to say anything, but thankfully captain Ryan McDonagh did.

"We understood that to reach the world we need a strong cloud computing system that analyses every component of the quality of the milk. Microsoft saw this could be a breakthrough," said Akol Chief Executive Ron Shani.
