"They are not taking bold enough action; there's a recognition that there is a crisis," said Lori Ann Burd, environmental health director for the advocacy group Center for Biological Diversity. She said the bees cannot wait, comparing more studies on neonicotinoids to going to a second and third mechanic when you've been told the brakes are shot.

Absolutely totally agree The major problem is this aspect of the EU argument does not show up on the public's radar. Even if it was raised I do not think you could get them to
take interest in it; sorry to say.

In a commentary published in the journal Nature, a group of researchers from the Massachusetts Institute of Technology and University of Alberta in Canada called for restricting genetically modified yeast strains to licensed facilities so that they won't fall into the wrong hands. They also want current laws to be extended to make such yeast strains illegal to distribute.

Full HD video recording is available up to 60fps with a bit-rate of 36Mbps. Both 30fps and 24fps (50p/25p available for PAL regions) frame rates are also available. Continuous video recording tops out at about 14 minutes with 1080p, but if you drop down to 720p video, then recording time is extended to around 27 minutes. 720p video includes the same set of frames rates as Full HD.
